Professional Summary

R&D Engineer and Full-Stack Developer with experience building production-oriented web applications, backend APIs, AI/GenAI solutions, and data-driven systems. Strong hands-on experience across Python, Django, Django REST Framework, JavaScript/TypeScript, React, databases, and modern AI tooling. Currently working on engineering and automation solutions involving railway technology, Generative AI, and large-scale data processing.

Professional Experience

R&D Engineer

Vassar Labs / VassarDigital.ai

May 24-Present

Hyderabad, Telangana

- Work on research and engineering initiatives involving AI/GenAI, backend systems, automation, and domain-specific software solutions.
- Contribute to the **KAVACH railway technology ecosystem**, including data processing, backend workflows, engineering automation, and system design.
- Build and maintain backend services and APIs using Python and Django/Django REST Framework, with database and data-processing workflows.
- Work with complex engineering datasets, validation/sanitization pipelines, and integration-oriented application architecture.

Frontend Developer

Tech at Core

Jan-May 24

Hyderabad, Telangana

- Developed responsive frontend interfaces and reusable UI components for web applications.
- Worked on integrating frontend applications with backend APIs and delivering user-focused application experiences.
- Built practical experience with modern JavaScript-based frontend development and component-driven UI architecture.

Selected Projects

KAVACH Design and Engineering Automation

Python, Django, REST APIs, Data Processing, AI/GenAI

- Work on software systems related to Indian Railways KAVACH engineering workflows, including structured data processing and automation.
- Build backend workflows for station data, asset processing, TIN-related data, validation, sanitization, and report generation.
- Contribute to automation and AI-assisted approaches for generating and standardizing engineering-oriented outputs and documentation.

Hyper-Local Backend Platform

NestJS, TypeScript, Prisma, PostgreSQL

- Designed backend APIs and data models for a hyper-local application using a scalable service-oriented architecture.
- Worked with device registration, notification tokens, permissions, and PostgreSQL-backed data models using Prisma.

AI/GenAI Conversational Applications

Python, LangChain, LLMs, Vector Search

- Built and explored conversational AI workflows using Large Language Models, embeddings, vector search, and retrieval-based architectures.
- Worked on applications involving context-aware responses, document/data retrieval, and AI-assisted user interactions.

Grocery Store Web Application

Vue.js, Flask, SQLAlchemy, Celery, Redis

- Developed a full-stack application with role-based access control, product/category management, search and filtering.
- Implemented background tasks, scheduled workflows, reporting, email reminders, and Redis-based caching.

Nxt-Trendz E-Commerce Web Application

React, JavaScript, Node.js, MongoDB, Firebase

- Built a full-stack e-commerce application with authentication, protected routes, product filtering, ratings, cart management, and persistent data storage.

Technical Skills

Languages: Python, JavaScript, TypeScript, Java, C, SQL, Dart

Backend: Django, Django REST Framework, Flask, Node.js, NestJS, Express.js

Frontend: React, Vue.js, Angular, HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis, SQLite

AI / Data: Generative AI, LLMs, LangChain, Embeddings, NLP, Machine Learning, Vector Search

Tools & Platforms: Git, GitHub, VS Code, Docker, Postman, Prisma, Firebase

Mobile: React Native, Expo, Flutter

Core Concepts: REST APIs, System Design, Data Structures & Algorithms, OOP, Database Design

Education

Rajiv Gandhi University of Knowledge Technologies, Basar

B.Tech in Computer Science and Engineering

2020-2024

CGPA: 8.7

Rajiv Gandhi University of Knowledge Technologies, Basar

Pre-University Course

2018-2020

CGPA: 9.8

Paramita Heritage School

Board of Secondary Education, Telangana

2018

CGPA: 10.0

Achievements & Additional Experience

- Microsoft Azure AI-900 Fundamentals certified with an aggregate score of 889.
- Human Annotated Headline Classification Dataset Creation internship, **Introduction to NLP, IIIT Hyderabad**.
- Solved 350+ problems across LeetCode, GeeksforGeeks, and CodeStudio.
- Led and contributed to technical activities through Tech-CID and Code Club technical teams.
